**New request for a pilot-judgment procedure**

Strasbourg, 20<sup>th</sup> July 2018

Honourable President of the Court,

We became aware of the following decisions

Requêtes n° 27166/18 et 27167/18  
Achille Claudio AIELLI et autres contre l'Italie  
et Giovanni ARBOIT et autres contre l'Italie

We would like to underline that the application of Ms PALLAVIDINO Romana differs from those already decided by the Court, because the applicant has raised her complaint not only with regards to her public pension, but to her supplementary private pension ("*pensione integrativa privata*") as well.

These pensions are the result of workers savings and do not constitute a burden on the State budget. We therefore ask for this specific claim to be decided for the first time.

Many other applicants have presented the same claim concerning their own supplementary private pensions. We are available for any further clarification.

Sincerely,

Michele IACOVIELLO
